

# Table of Contents

**Acknowledgements.....viii**

**Foreword.....ix**

**Chapter 1 ..... 1**

**Introduction ..... 1**

Morbidity ..... 3

Vesico-vaginal fistula, recto-vaginal fistula, 3rd and 4th degree tear ..... 5

Psychosocial effects of obstetric fistula ..... 8

Need for good nursing care for fistula and perineal tear ..... 10

Basic equipment needed for nursing VVF patients..... 11

Infection prevention ..... 13

    Hand hygiene..... 13

    Cleaning ..... 13

**Chapter 2 ..... 15**

**Pre-operative Care.....15**

    Screening for fistula (VVF and RVF), 3rd and 4th degree tear patients ..... 15

    History taking ..... 16

    Examination ..... 18

    Assisting the surgeon in patient evaluation ..... 19

    Counselling before surgery ..... 23

    Immediate pre-operative care ..... 24

**Chapter 3 ..... 27**

**Understanding Operation Notes and Classification of Fistula .....27**

    Vesico-vaginal fistula ..... 28

    Ureteric and other fistulas ..... 29

    Recto-vaginal fistula..... 30

    Perineal tears ..... 30

    Highlights of the operative techniques..... 31

        Singapore flap ..... 31

        Martius fat graft..... 32

        Muscle flaps ..... 32

        Gracilis flap ..... 33

        Rectus abdominis flap..... 33

        Ischiocavernosus flap..... 33

**Chapter 4 ..... 34**

**Nursing Care in Theatre .....34**

    Preparation for theatre..... 34

    Patient safety ..... 35

    Positioning the patient on operating table ..... 36

Privacy and respect .....	37
Scrub nurse .....	38
Instruments .....	40
Sutures .....	42
Completion of surgery .....	43
<b>Chapter 5 .....</b>	<b>45</b>
<b>Post-operative Care .....</b>	<b>45</b>
Managing the ward .....	45
Transferring patients from trolleys to bed.....	46
Catheter care .....	47
Urinary catheters .....	47
Ureteric catheters.....	53
Fluids.....	55
Diet.....	57
Pain relief .....	57
Bladder spasm.....	58
Antibiotics .....	58
Monitoring vital signs and wound checks.....	59
Removal of vaginal packs/perineal hygiene/pads .....	61
Mobilisation of patients.....	64
<b>Chapter 6 .....</b>	<b>65</b>
<b>Post-operative Complications and Challenges .....</b>	<b>65</b>
Blocked catheters .....	65
Bloody urine/clots.....	66
Infection .....	67
Bleeding .....	68
Spinal headache .....	69
Vomiting post-anaesthetic/ileus.....	69
Patient becomes wet .....	69
Counselling women who have failed repairs .....	71
<b>Chapter 7 .....</b>	<b>73</b>
<b>Discharge.....</b>	<b>73</b>
Removing catheters .....	73
Urinary retention .....	74
Stress incontinence.....	75
Discharge advice for fistula patients.....	76
Discharge advice after repair of 3rd and 4th degree tears.....	76
Follow up.....	77
<b>Chapter 8 .....</b>	<b>78</b>
<b>Social Reintegration and Rehabilitation for Fistula Survivors .....</b>	<b>78</b>
Secondary infertility.....	79

Fistula prevention .....	80
Avoidance of 3rd and 4th degree tear .....	81
Fistula champions .....	81
Ethical considerations in nursing fistula patients .....	82
<b>Conclusion.....</b>	<b>84</b>
<b>Bibliography.....</b>	<b>85</b>
<b>Appendices.....</b>	<b>87</b>
How to Handwash?.....	87
DDD Observation Chart .....	88
Pelvic Floor Exercises .....	89
