

INDEX

A

- abdominal approach 103, 105–06
- adrenaline, in anaesthesia 48
- amenorrhoea 22, 33
- anaesthesia 48–49
- anal sphincter injuries 148–51, 175
- antibiotics 128,
 - post-operative 49
- Ashermann's syndrome 58

B

- bladder bisection 106–08
- bladder mobilisation 58, 66, 71–75, 84–88, 91, 96, 107, 131,
 - in urethral reconstruction 108, 111, 112
 - in ureteric fistula operation 136
 - in urethral plication 156
- bladder stones,
 - causes 22
 - management, operative techniques 127–29
- bleeding, intra-vesical 202
- bupivacaine 48–49

C

- caesarean delivery 34, 134,
 - prevention of fistulae during 41–42
 - statistics of incidence 209–11
- catheters 159–60, 180, 182–86, 188–90,
 - indwelling 82
 - ureteric 187–90
- circumferential fistulae 27–28, 203, 209,
 - operative techniques 82–98
- classification of obstetric fistulae 25–31,
 - descriptive template 30–31
 - Goh's system 28–29, 68, 85, 113
 - recto-vaginal fistulae (RVFs) 139

scarring 28

site 25–27

size 28

Waldijk's system 29–30

- colostomy 140–42
- conservative management 41, 154–55
- continent ileal bladder 172
- contractures 22, 44–46
- craniotomy 42
- cryptomenorrhoea 22

D

- discharge advice 192–94
- discharge of patient 191–93
- distal and proximal, definition 66,
- double fistula (RVF/VVF) 31, 142, 203
- dye test 37–39, 131, 135,
 - post-operative 58, 78–80, 155, 181, 191

E

- epinephrine 48
- episiotomy 69–70, 119, 131–32, 142–43, 145, 156
- examination 34–36, 60, 139, 155–56

F

- failed repair and re-operation 129–33, 191,
 - operative techniques 129–32
- fat graft 14, 109, 119, 121, 124–26, 164
- fibro-muscular sling 89, 109, 112, 114, 115, 134, 156–59, 160
- flaps,
 - labial 119–26
 - Singapore 120–22
 - thigh and buttock 120
- foot drop 33, 60, 138
- furosemide 71, 99, 131, 135

G

Gishiri cutting 110
 Goh's classification, obstetric fistulae 28–29,
 68, 85, 113

H

history taking 33
 HIV 40, 133
 hydrodissection 70–71
 hydronephrosis 20, 135, 169, 174
 hyponatraemia 182
 hysterectomy 33, 34, 135

I

iatrogenic injury 20, 24–25, 27, 170, 181,
 post-caesarean intra-cervical fistulae
 106, 181
 incontinence, post-repair 39–40, 113,
 152–69, 180–81, 194
 assessment 154
 pad test 154, 157, 208
 post-repair operative technique
 156–65
 unrelated to obstetric fistula 23
 infertility 22–23
 inoperable cases 170–75, 196,
 urinary diversion 170
 instruments, surgical 49–50, 206
 International Federation of Gynecology and
 Obstetrics (FIGO) 13
 intra-cervical fistulae 27, 202,
 operative techniques 98, 100–04, 106

J

juxta-cervical fistulae 26–27, 31, 98–101,
 operative techniques 98–101, 102
 juxta-urethral fistulae 25–26,
 operative techniques 85–98

L

lidocaine 48–49
 lighting 52–54, 206

M

Mainz II pouch 172–79,
 operative procedure 176–79
 malnutrition 22
 Martius graft 14, 109,
 operative technique
 119, 121, 124–26, 164
 mental health 21, 44, 194
 mid-vaginal fistulae 31
 Mitrofanoff procedure 172
 mortality rates 198

N

needles 51, 76, 206, *see also* sutures
 neurological damage 33, 44, 60, 138
 nursing 180–92

O

O'Connor technique 106–08
 obstructed labour injury complex 19–22
 one hour pad test 154, 157, 208
 operative principles 57–59
 operative procedure,
 anal sphincter injuries 148–51, 175
 bladder bisection 107–08
 bladder mobilisation 58, 66, 71–75,
 84–88, 91, 96, 107, 131
 bladder stones 127–29
 circumferential fistulae 82–98
 colostomy 141–42
 double fistula (RVF/VVF) 142
 failed repair 129–32
 fascial sling 117–18, 161–63
 fibro-muscular sling 156–57, 159
 injured ureter 200–02
 intra-cervical fistulae 98, 100–04, 106
 juxta-cervical fistulae 98–101, 102
 juxta-urethral fistulae 85–98
 labial flaps 119–20
 Mainz II pouch 176–79
 Martius graft 119, 121, 124–26, 164
 post-repair incontinence 156–65
 recto-vaginal fistulae 143–46

- reoperation 129–32
 - simple cases 66–82
 - Singapore flap 120–22, 162–63, 164–65
 - strictures 194
 - stress incontinence 113–18
 - ureteric fistulae 135–37
 - urethral plication and fibro-muscular sling 156–59, 160
 - urethral reconstruction 108–12
 - urethral refashioning 163–65
 - vaginal skin defects 118–23
- P**
- pad test 154, 157, 208
 - pelvic floor exercises 154–55, 157
 - perineal tear 20, 31, 138, 148–50
 - pinhole fistulae 64
 - position, operative 52–56, 104, 125, 145
 - post-operative nursing care 180–92
 - post-partum stress 39–40
 - preoperative preparation 44–47, 142–43, hydration 47
 - pressure sores 94
 - prognosis for repair 32
 - proximal, definition 66
 - pubo-cervical fascia repair 113, 114
 - pubo-coccygeal sling *see* sling, fibro-muscular
- R**
- record keeping 68–69, 186–87, 196–98
 - recto-vaginal fistulae (RVFs) 31, 44, 49, 138–146, 175, 203,
 - definition 20
 - incidence 20, 209
 - operative technique 143–46
 - rectum injury 203
- S**
- scarring 28, 31, 35, 64, 113, 139, 146
 - schistosomiasis 129, 133
 - selection of cases 59–66
 - sexual relationships, post-operative difficulties 195
 - Sheehan's syndrome 22
 - Singapore flap 118, 120–22, 146, 162–63, 164–65
 - slings 59, 92, 95, 113,
 - fascial 88, 117–118, 160, 161–63
 - fibro-muscular 89, 109, 112, 114, 115, 134, 156–59, 160
 - social consequences of obstetric fistula 15, 21, re-integration 195
 - sphincter tears 49, 138
 - statistical comparison of countries 41, 138, 209–10
 - stress incontinence 113–18
 - stricture, post-operative care 194
 - sutures 51, 76–78, 80–81, 90–91, 93–94, 126, 145, 149, 157, 159, 206–07
- T**
- timing of surgery 42–43, 148
 - tubal ligation 135
- U**
- ultrasound scan 40
 - United Nations Campaign to End Fistula 13
 - ureter injury 200–02
 - ureter, double 201
 - ureteric fistulae,
 - causes 20, 134–35
 - diagnosis 39, 135
 - operative technique 135–37
 - ureteric involvement 95–98
 - ureters, protection during surgery 71
 - urethra length 59
 - urethral plication with fibro-muscular sling 156–59, 160
 - urethral plug 167–69, 207
 - urethral reconstruction 108–12
 - urethral refashioning 163–65
 - urethral stenosis 85
 - urinary diversion 170–76,
 - ileal conduit 170, 171–172
 - Mainz II pouch 170
 - urinary infections 194
 - urine dermatitis 22, 34

urodynamic assessment 165–66
urostomy 171

V

vaginal packing 81
vaginal reconstruction 58
vaginal skin defects 118,
 surgical solutions 118–23
vaginal stenosis 19, 20, 22, 23, 28, 35, 68,
118, 142
vault fistulae 27–28, 34, 104–05, 202
vesico-vaginal fistulae (VVF) *passim*,
 causes 17–20, 23–25
 positions of ischaemic injury 31
 RVF/VVF double fistula 31, 142, 203
 basic operative techniques 66–82

W

Waldijk's classification,
 obstetric fistulae 29–30
water intoxication 182
